MEET YOUR LEAD COACH

ZOE WILLIAMS CEO & FOUNDER, LUMINARY MINDSET™

Zoe Williams began in accountancy, moving into director of internal audit and risk roles for FTSE 100 and Big4 Professional Services. Zoe applied her interest in humanistic behaviour and psychology to the strategic risk management environment. This resulted in her coaching executives and developing strategic risk management techniques for global FTSE listed companies that addressed leadership behaviour, culture and risk.

Luminary Mindset™ was built from Zoe's desire to help organisations understand the correlation between Emotional Intelligence, human behaviour and achieving exceptional performance and results. She is now a qualified Transformational Executive Coach, ICF accredited and has worked with FTSE 100 and ASX 50 CEOs and Executive Leadership teams. Her passion is in helping CEOs and executives create a performance culture that is designed to achieve exceptional performance outcomes through adapting the working environment and leadership behaviour of their organisation.

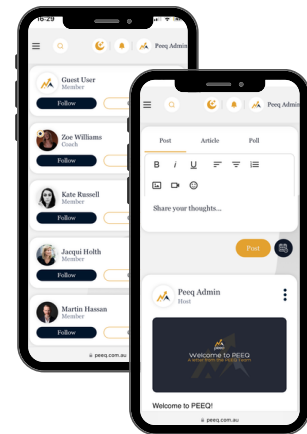

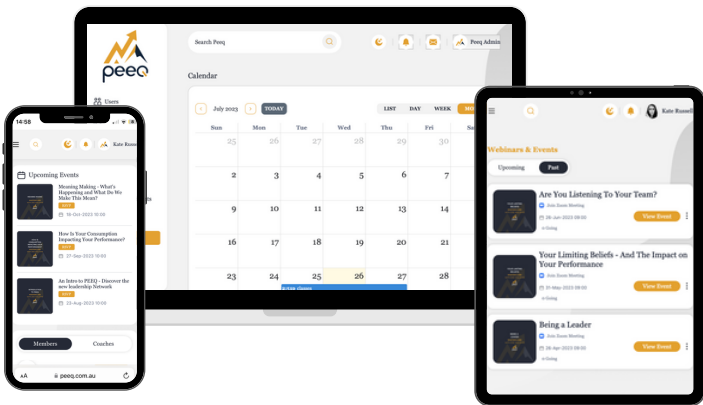

The creation of PEEQ™ was the solution to the need for global access to Zoe and Luminary Mindset™ coaching and resources. This specially-developed platform combines coaching with live online events and global networking.
